WHO IS ZORABOTS?

Created in 2011 by Fabrice Goffin and Tommy Deblieck. 50 employees including 30 developers. 4 offices around the world. Best social robot seller in Europe.

KEY FIGURES

More than 20,000 people use the Zora Solution embedded into Nao and Pepper. More than 700 robots sold in Europe in the last 2 years.
Designing software that will allow people of all ages, who have absolutely no skills in programming, to create amazing behaviors and interactions on social robots.

Commercializing social robots with our software suite. We are establishing partnerships with companies who specialize in hardware design to bring solutions through our software to various business verticals as well as consumers.

Creating robots, hardware and software, to assist the elderly in their daily lives and help them to fight loneliness.
THE ZORA SOLUTION
No need to code to get the best from your humanoid robot.

LIBRARY OF APPLICATIONS
More than 70 applications to work out, dance, play, be productive, and have fun.

COMPOSER
Create your own behaviors. The only limit is your imagination!

CONTROL AND GUIDANCE
In real time, make your robot: Walk, interact, speak and translate different languages, move, see, listen, record videos, express feeling and more.
Most behaviors/apps include settings.

With these settings, users can tweak the workflow of the behaviors.
DATASETS

Some of the behaviors/apps are linked to datasets. Change the data very easily.

For example create your own Quiz and add several questions and answers.
In real time, make your robot walk, interact, speak and translate different languages, move, see, listen, record videos, express feeling and more.
COMPOSER

Program your robot by dragging and dropping boxes in order to create a full personalized composition.
You can adjust settings of each composer box and then play, save and share it. (Also start it from a QR code).
The Zora Solution gives you the possibility to easily and quickly create amazing behaviors on Nao and Pepper to inform and delight your visitors in a way they will never forget.

- Collect your customers’ feedback
- Delight your customers and make their experience in your hotel/restaurant memorable
- Tell your visitors fun facts about the city
- Help your visitors to find their direction in the hotel
- And more
Attract even more customers by easily and quickly creating interactive and engaging behaviors.

- Generate traffic
- Collect customer feedback
- Create unforgettable shopping experiences
- Help customers to find what they look for
- Inform visitors if their size is available in stock
- And more

RETAIL
Easily program cute, social robots to lighten the heavy atmosphere of the hospital, entertain your visitors and deliver an unforgettable experience.

- Distract and entertain children while they receive treatment
- Personalize treatment or surgery explanations
- “Visit” and check in on patients; call hospital staff if needed
- And more
ELDERCARE

Easily program cute, interactive robots to do what humans have no time to do and delight your residents everyday.

• Make daily physical exercise a fun experience
• Fight the feeling of loneliness
• Reduce cognitive decline
• Work on patients’ memory
• And more
EXHIBITS

Offer clients the opportunity to create custom programs and interactions around their brand to make their event unforgettable.

- Collect your visitor feedback
- Bring fun and originality to all your events
- Personalize amazing behaviors to entertain your visitors
- Help the visitors find their way in the event
- And more
ACADEMICS

Quickly and easily program many behaviors to bring wonder and passion back to learning for children.

• Adapted to every level from kindergarten to higher education
• Keep the children focus whatever the subject is
• Teach STEM and programing with specific curriculums
• And more
OUR OFFER

1 Nao Robot

1 Zora Solution license

CHOOSE WHAT FITS YOU BEST

• Zora Solution Light Version
  Without the library of applications

• Zora Solution Full Version
  All included
